PREFACE

In every year, this office analyses the State Government Budget under the guidance of National Accounts Division of Central Statistics Office, Government of India for State Income Accounting. This office brings out a report on Capital Formation based on this budget analysis which must be of immense useful to the Policy Makers. This report furnishes all types of expenditure of Public Administration (PA) and Departmental Commercial Undertakings (DCU) on Capital Formation. So, this report depicts a clear idea about Capital Formation out of Budgetary resources.

In this Publication, the estimates of Government Gross Fixed Capital Formation (GFCF) of Government sector based on the analysis of the State Government Budget for the year 2004-05 to 2011-12(Actual), 2012-13(Revised) and 2013-14(Estimate), are presented in Part I.

The estimates of Gross Fixed Capital Formation (GFCF) indicate the growth potential of the economy of Nation or a State. Higher the growth rate of Capital Formation, higher would be productive capacity of the economy. At the State level the estimate of Gross Fixed Capital Formation are not readily available for the economy as a whole due to huge requirements of data from Non-Departmental Commercial Undertakings (NDCUs), Urban & Rural Local bodies, Govt. Administrative Departments, Supra regional sectors, Autonomous Bodies, Departmental Commercial Undertakings (DCUs), Private Corporate Sector and House Hold Sector.

In Part I, this report furnishes the GFCF estimates of State Government Administrative Departments and Departmental Commercial Units for the period 2004-05 to 2013-14 (Budget Estimate).

In Part II, this report tries to furnish the estimates of GFCF of Non-Departmental Commercial Undertakings (NDCUs) from the year 2004-05 to 2012-13 (Quick).

In Part III, this report furnishes the estimates of GFCF of State Municipalities and Municipal Corporations for the year 2011-12 and 2012-13 (Quick).

In Part IV, this report furnishes the GFCF of Supra Regional Sectors (Railways, Communications, Banking & Insurance and Central Government Administration) for the years 2011-12 and 2012-13.

I am thankful to National Accounts Division of Central Statistics Office, Ministry of Statistics and Programme Implementation, Government of India, for their valuable guidance. I, also extend thanks to different NDCUs and Municipalities and Municipal Corporations for sending their Annual Reports to construct GFCF of the State.

I appreciate all Staff of Family Budget Unit for their sincere effort to prepare this report.

I hope that the user of this report will extend their valuable comments to enrich this report in future.
